Astrological Report for  
Jennifer Aniston

## **Introduction**

Astrology is as old as measured time. Although there are many different approaches to astrology, all astrologers appear united in the idea that there is a connection between the heavens and the Earth -- they share one common space. For centuries there has been a misunderstanding concerning the nature of astrology to the effect that the heavens somehow "influence" events here on Earth. This theory of celestial influence has penetrated into the modern world until today it is the main concept or idea of astrology supported by the public -- the lay astrological audience. Professional astrologers do not hold with theories of celestial influence. Instead, the modern astrologer conceives of the heavens and Earth as united, interpenetrating, and sharing a common space and time. The great cosmic or celestial events happening around and beyond the Earth (eclipses, lineups, and so on) are not seen as CAUSING events to occur on Earth, but as great signatures of events ALSO happening here on Earth. In other words, there is no "cause" in the heavens followed by an "effect" here on Earth. Instead, both planetary and earthly events happen simultaneously and are mutually reflective. Neither is the cause of the other; both are the product of the moment, one acted out in the heavens above, the other here on the Earth below. While astrologers don't feel that heavenly events are the cause of events here on Earth, they do feel that specific heavenly events are enacted here on the Earth too -- at the same moment. In other words, there is only one grand "play." The great drama enacted in the sky is also acted out (in exact detail) here on Earth in the same instant. Another way to say this is that the Earth is part of the cosmos and shares in that cosmic moment. Scientists have been discovering (for example) that sunspots, solar flares, and solar activity have a very definite (and almost immediate) effect here on Earth. Astrologers tend to feel that all major cosmic events such as eclipses are interactive; they represent an activity also taking place within us and our consciousness. In summary, astrology is a study of heavenly cycles and cosmic events as they are reflected in our earthly environment and vice-versa -- a vast cosmic clock. Astrologers find the cosmic patterns revealed in the rhythmic motions of the planets a great help in shedding light on the seeming helter-skelter of everyday life. Astrologers may have their heads in the heavens, but only to better guide their feet here on Earth. We hope you enjoy your Astro\*Talk profile. It has been calculated using sophisticated astronomical formulae to ensure high accuracy. On the next page you will find a list of the zodiac positions of your natal planets along with the house cusps for your birth moment.

### **Your Rising Sign**

First let's take a quick look at your ascendant, or rising sign. Astrologers want to know what zodiac sign is rising at birth, since this gives a picture of the way you appear or come across to others.

You are all things to all people, always responding in a way to please and flatter -- a social being. You are so diplomatic and polite that one wonders if you have a viewpoint of your own. You have a natural ability to reflect and mirror others.

## Planet Aspects

### **The Lights: The Sun and Moon**

At the time of our birth, the planets (through their configurations and relationships) tell us something about how things were when we were born. Each planet points to special qualities within us. Yet, of all the planets, the two most important planets to astrologers are the "lights," the Sun and the Moon. From where we stand here on Earth, the great shining Sun by day and the reflecting Moon at night are our constant companions. They have much to tell us as to where we have been and where we are headed.

### **The Sun: Your Self and Future**

From the Sun comes light, that which draws us into life. The Sun represents all the changes we have not yet taken, that part of us that we have not yet experienced but are headed toward. The Sun represents our identity, or self, in that it is toward these that we are moving and developing. Thus, it also represents that which we will become: older people, authorities -- those we look toward, or up to. Our essence, or future. Teachers, gurus, and older (more experienced) people are represented by the Sun. The Sun is "hot stuff," those further up the road of life experience.

You are open-minded and democratic, enthusiastic, and have a definite sense of mission. Above all, you are a progressive and enjoy putting into practice that which is good for all. Your altruism could appear as coolness. At home with different cultures, peoples, and lands, you love to work with (and in) groups.

*Sun in Aquarius*

You are very fortunate in being able to grow and progress throughout your life without major difficulties. You can always find the resources you require at hand plus the necessary instruction in how to use them. An inner vision, coupled with the ability to see the "Big" picture, often finds you working as a go-between with others. You could even have a special gift for spanning the generation gap, bringing older and younger spirits together. A love of animals, children, older people, and the needy and downtrodden in general, is a lifelong trait.

*Moon Sextile Sun*

You push hard, but much energy is wasted because you tend to lack direction and planning. You often work against the way things are: authorities or the status quo. It may be difficult for you to coordinate your ambitions with your actual actions and feelings. You tend to hobble yourself emotionally. Your drive and passions put you at odds with authority figures time and again. This tendency towards clashes and emotional confrontation does exist, and at these times you can be your own worst enemy.

*Sun Square Mars*

Responsibilities are easy for you, and you tend to pile on tasks, one after another. You work very hard, with a gritty resolve, and can accomplish much. It takes a lot to overload your willingness to take charge and help out. Organizational skills are good, and a career in one of the physical sciences is quite possible. You find it easy to work with those in authority or those who are more experienced than yourself.

*Sun Sextile Saturn*

You find yourself fighting to realize your ambitions amidst a sea of fuzzy dreams. A fear of letting go (and trusting the more mystical side of yourself) keeps you hard at it. You can't seem to let yourself dream a little, don't trust your own idealizations, and struggle between your sense of ideals and your more realistic ambitions. Your practical concerns with getting ahead and fulfilling your ambitions tend to ignore your more deep-rooted ideals and dreams. You may not trust those in authority.

*Sun Square Neptune*

You get along well with older people, especially those in authority. It is easy for you to convey yourself to others, and you always manage to make a good appearance. You have an easy manner and find it easy to communicate with just about anyone.

*Sun Trine Ascendant*

### **The Moon: The Support System**

Here is information about the kind of environment we create around us, our support system. It is not only the surroundings that we set up today, but the Moon also represents our past, the particular history and social background out of which we grew. Aside from our social background, the Moon governs all of the old habits that we have grown beyond. We tend to look down on, or back on, our Moon. It represents those experiences out of which we have come, all those younger souls who are unconscious, or "sub" conscious to our own level. This is why it is said that the Moon is a mystery planet, for it is both our parent and our child: our parent in that out of it we were born, our child in that we can't but respond to others who are now living as we once did.

You are even happy in austere settings, and enjoy getting back to the basics. Religion, truth, and the world of philosophy and ideas are of interest. Your love of simplicity is good for politics too. It brings out the truth and a sense of honesty in a group. You are freedom-loving, independent, and at times, even a trifle remote. You are not bound by relationships and are thus not much of a domestic.

*Moon in Sagittarius*

A special affinity for old people and for children, plus an innate love of animals, the helpless, and the underdog. An inner vision coupled with the ability to see the "Big" picture often finds you working as a go-between with others.

*Moon Sextile Sun*

Your sense of responsibility is so well developed that you always end up managing any situation you become involved in. You are disciplined, work hard, and are good at getting others to work with and for you. Perhaps a little too serious and frugal, you enjoy getting along on less. Essentials are what count. You like to keep to yourself and tend to avoid too much socializing. Others may prefer keeping some distance too.

*Moon Trine Saturn*

You keep your feelings and emotions to yourself and resent any attempt to analyze or probe them. Your home and surroundings are tidy and air-tight, as well. However, you don't mind probing and dissecting the lives of others. This can't help but produce a strain in your relations with others, and you probably get very little support for your detective work. These two parts of you which seldom meet cause constant tension, resulting in periodic explosions.

*Moon Square Pluto*

Everything seems to conspire to put you in the limelight. You always come off well in a group and manage to get your ideas across.

*Moon Sextile Ascendant*

### **The Inner Planets: Mercury and Venus**

The planets Mercury and Venus have more to do with our internal and personal life than with life outside us. These inner planets are located between the orbit of the Earth and the Sun. We can look to qualities that are inside us. Venus indicates how we appreciate and measure our experience, how we value life. Mercury tells us something about how our mind works, how we think and communicate -- our intrinsic brightness.

### **Mercury: The Mind and Communication**

Mercury is the light in our eyes, the ever-changing consciousness within us that moves from idea to idea. Thus Mercury has always represented thoughts, ideas, and the mental process in general. It governs not only ideas, but communications, too. Communications -- by phone, letter, spoken, or however -- are ruled by Mercury. Also thoughts, connections, phone wires, and everything that connects and conveys -- even conversations.

You are an impartial thinker, democratic to the point of being impersonal. Fascinated by the latest technology, you have very original ideas, an inventor. Always thinking of the world as a unity, you are idealistic and believe in putting into practice what is preached. You are group-conscious, community-oriented.

*Mercury in Aquarius*

You enjoy working with your mind and can usually find a solution to even the worst problems. You like to solve puzzles and dilemmas, yours or others'. Your skills in this regard make you expert at counseling and guiding others. Fine verbal skills and a natural sense of justice makes legal work a distinct possibility. Working with laws, natural or man-made, amounts to a real talent. You also have a great interest in ideas, the more true and lasting the better. Religious concepts will be a lifelong concern for you.

*Mercury Trine Jupiter*

You enjoy working with your mind, and your sharp perceptions make finding new solutions easy. You always bring an unexpected twist or insight to anything you set your mind to. You are able to teach or help others to be more original when it comes to the words or thoughts they use. You can use the mind in original ways and probably have excellent eye-hand coordination. Your laser-like mind makes conversations fast-paced

and illuminating. A ready wit.

*Mercury Trine Uranus*

You are expert at working with words that communicate mystical and mythological ideas. You are at home in these realms and can always manage to bring other-worldly ideas into the practical realms. You would make an excellent teacher of philosophy or religion, for you can't help but communicate these subjects and enchant all who come to know you. Your understanding of the unity behind appearances, along with the ability to put these thoughts into words, is a rare and valuable gift. You would make a good director, for you like working with mental images.

*Mercury Sextile Neptune*

When it comes to mental work, you have a perfect gift for research and investigation. You enjoy examining and analyzing, in particular when it comes to psychological and sensitive areas of the mind. Your ability to sift through the dross and come up with what is essential every time is exceptional. You like to discuss and communicate, again always at a psychological and very personal level. Others may find you just too intense.

*Mercury Trine Pluto*

Your mind is ever on career and family, and this may not make you the most communicative and social animal. You may prefer to avoid crowds and all large gatherings. You may not need relationships other than at home and at work.

*Mercury Square Ascendant*

Your mind runs to domestic issues; home and family are always on your mind. This trait could work against your career interests, especially if your job requires managerial and organizational skills. Perhaps a home business would be good.

*Mercury Opposition Midheaven*

### **Venus: Values and Discrimination**

Venus rules our values and sense of appreciation. When we appraise or appreciate something, whether that be another person or a new car, this is Venus -- the sense of love and compassion we may feel. By the same token, this planet rules enjoyment too. Whether it be self-appreciation or just plain old decadent self-enjoyment by having a good time, this is Venus. When we go shopping or are on a spending spree, it is Venus that allows us to appreciate and value all the good things of life.

You exhibit great appreciation, intense love, and always wear your heart on your sleeve -- always! Not too sensitive with others, you tend to be rough and ready and can sometimes demand a lot of attention. Shy flowers, stand back! You are independent and single-minded, demonstrative and very loving.

*Venus in Aries*

You may fail to appreciate the correct decision or solution when you see it. This can mean that your judgment in career and vocational matters is at times not dependable. You may be well advised to accept the counsel of others concerning decisions relating to your career or life path. A tendency to go too far, expand too fast, and overindulge needs to be noted, and some adjustment made. Your appetites may carry you away from what you know to be the best path.

*Venus Opposition Jupiter*

You like your life regular and find little value in new trends and inventions for their own sake. The same goes for nonconformists and all the other weirdo's that crowd the world. You oppose them, and often deliver your message in person. Arguments on this theme are common. Any sort of change threatens you more than most, and you do all you can to ignore it. Every so often, like those earthquake faults, all hell breaks loose and some of this catches up with you.

*Venus Opposition Uranus*

### **The External Planets: Mars, Jupiter, Saturn**

The major planets outside the Earth's orbit (external to us) are Mars, Jupiter, and Saturn. These are the planets of the outer world -- life as we find it outside ourselves. Mars tells us something about the drive and energy we have, Jupiter shows us how to best channel that energy, and Saturn decrees what sort of material or territory we will be passing through. Again: Saturn tells us about the territory we will be going through, Jupiter the way or path through it, and Mars what kind of push or drive we can count on to keep going.

#### **Mars: Drive and Emotions**

Mars is the planet of emotion and inner motivation or drive. When we search for the meaning of something, life or whatever, it is Mars that urges us on, keeps us searching. Mars also drives us against things, too and sends us into war and combat. The urgency of Mars, the search for meaning, is identical to the need for union, yoga, and marriage. Mars is the planet of union, and marriage is the most common form of yoga. When we have questions about the opposite sex, we are looking at the planet Mars.

You possess a powerful, persistent drive and are a hard, steady worker. Others may find you deep, with a sense of mission and mystery. You are willing to do work others would not go near, quietly bending things to your will, having it your own way. You have strong sexual energy, too, and enjoy getting down to the nitty-gritty.

*Mars in Scorpio*

Your drive to succeed is strong, but you often push yourself in a direction against your own best interests. Your ambitions may find you at odds with authority figures again and again. A tendency towards arguments and emotional drama exists.

*Sun Square Mars*

A desire for unity and atonement. You have an urge to put out to sea and to somehow get past what separates and into that which unites or ties things together. Your drive to make dreams real keeps you working for your vision. The ideal should be made real. You put your whole heart into making your dreams and ideals a reality.

*Mars Conjunction Neptune*

You enjoy working with whatever is psychological -- the hidden, vulnerable, sensitive areas of the mind and self. You can handle material that is sensitive or taboo without batting an eye. This interest in all that is psychological makes you an excellent teacher in the field. You have a natural grasp for the political, for handling the public, and

you know how to get your way. Your drive in these areas amounts to a passion, and those around you may feel that you are often too intense. Power struggles are somewhat routine for you.

*Mars Sextile Pluto*

You put forth a lot of effort, in particular regarding your career. Your drive and ambitions work well with whatever management skills and practical ability you have, producing a harmonious work environment.

*Mars Trine Midheaven*

### **Jupiter: Career and Life Path**

Jupiter is the planet of success and simple survival, the way we have to solve the problems that confront us. Thus Jupiter has to do with the way in which we can be successful, our vocation. The Hindu word for Jupiter is Guru. Jupiter is the guru and guide, the way we go through life, our life path or vocation. Jupiter is the method each of us has for dealing with the laws of life, our Saturn, or limitations. Jupiter is the light or path. Jupiter provides us with our sense of direction, the path we are on, the way we handle life. It affects how we approach life's problems. It has always been an indicator of how successful we may be, our vocation.

You could enjoy a career working with people as a go-between, negotiator, or mediator, for you can be all things to all people -- the mirror. You are not interested in what runs deep, but prefer to control what goes on at the surface. That's enough for you. Open and not self-centered, you are a natural diplomat.

*Jupiter in Libra*

Good ability to "get the picture" (the gist of things) and to communicate this to others. In fact, helping others to find their way through life (for example via vocational counseling) is indicated. Religious ideas and concepts are natural.

*Mercury Trine Jupiter*

You can't help but overindulge. Your appetites seem to ignore what may be the best choice for you and run to excesses. You have difficulty staying on the straight and narrow. You may have to exercise self-discipline to make career progress.

*Venus Opposition Jupiter*

Unusual vocations. Your career or life path, the way you make your living or get through life, will be very different, perhaps unique. You always take the road less traveled by and, skirting the crowd and the commonplace, head for parts unknown. Your approach to any problem is always original and you could invent things or discover new places or develop new ways of doing things. Communications, computers, and the whole electronic revolution are a perfect career choice for you.

*Jupiter Conjunction Uranus*

### **Saturn: Responsibilities**

The process of finding out who we are (self-discovery) starts when we come to grips with whatever problems life presents to us and begin to get a handle on them. In other words, if we have not dealt with Saturn, or time (that is, if we don't have some control of

time), there is little opportunity for other questions. Saturn rules the laws and limitations of this material world we all live in. Saturn indicates where we are bound to learn, the narrowness that makes our way felt, the walls that make homes possible. Saturn holds us together as much as apart. Saturn is said to be the great teacher, the planet that keeps us from getting carried away in one direction or another. Although it always seeks to limit and determine any thought, word, or action, it also defines and clarifies. Saturn is called the prince of the material world.

You have a need to be bold, rash, and even a little foolish -- to dare. You may have to work on being alone, on being more aggressive, challenging, and willful. You could have difficulty with leadership, self-assertion, and outgoingness, in general. A need to develop impulsiveness, the pioneer spirit, and pride in self.

*Saturn in Aries*

There is a real love of science and natural laws. You are a hard and tireless worker, with absolute determination and the ability to accomplish great projects with ease. You are fiercely loyal to your friends. Also, very integral... perhaps too sober.

*Sun Sextile Saturn*

A tireless and disciplined worker, you have a tendency to be serious and to prefer being alone over entering the social scene. You can get the most out of others, get them to work under you. A wisdom that comes from simple needs. Conservative. Careful.

*Moon Trine Saturn*

You are very painstaking and deliberate when it comes to partnerships, lovers -- relationships of all kinds. You tend toward long-lasting friendships and are very loyal, sometimes too staid.

*Saturn Opposition Ascendant*

You are very painstaking and deliberate when it comes to partnerships, lovers -- relationships of all kinds. You tend toward long-lasting friendships and are very loyal, sometimes too staid.

*Saturn Square Midheaven*

## **The Outer Planets**

In the previous sections, we have dealt with planets that we can see with our naked eyes. In general, these planets refer to life as we know and live it and are the so-called historical or classic planets. Beyond these are three planets that are not visible in the sky and which have cycles longer than the average human life span. Since they are beyond Saturn or time, astrologers call them the trans-personal or transcendental planets -- the planets beyond the physical. One of the ways astrologers learn something about our life beyond time (eternal life) is through these three outer planets: Uranus, Neptune, and Pluto. Here we find information on how we discover ourselves (Uranus), how we understand and accept these discoveries (Neptune), and, in time, how we depend and identify with them (Pluto).

### **Uranus: Break-Thrus & Insights**

Our responsibilities can tend to weigh us down, and we each have our particular ways

of getting around (or breaking through) the mass of obstructions that tends to congeal around us. The planet that has to do with how we get beyond the difficulties and problems life presents us is Uranus. Here is the way insights come to us, how we discover or come to know and understand ourselves. It has to do with finding new uses for old things, and it rules inventions and sudden insights into our life -- everything that is unusual, eccentric, and out of the ordinary. It is the reverse of the status quo and is always unconventional and heretical. Uranus is, in many ways, the opposite, or undoing of Saturn.

You can find new ways to relate and may be innovative in marriage and social conventions. Very tolerant and accepting of differences, you have good insights into all social values. Independent. You like to facilitate, compromise, and otherwise show your breadth of scope -- like a coat of many colors.

*Uranus in Libra*

Sharp, nimble mind with ready wit. Quick to get insights and to see new solutions. Approaching genius when it comes to communication skills. Natural physical dexterity. Good hands too. The life of the party when it comes to spontaneity.

*Mercury Trine Uranus*

You tend not to like things (or people) who are unconventional or different. You appreciate conformity and traditional values, although you may have periods when you break through all this and do the unexpected and let it all hang out.

*Venus Opposition Uranus*

Yours is an unconventional path that may take you into unknown and uncharted waters. Inventive and original, you may come up with new and different solutions. Electronics, computers, and the like may be to the fore.

*Jupiter Conjunction Uranus*

Your insight and vision into what unites people and into the dreams and mystical regions of our mind is profound. You have an enchanting way of working and communicating with others in these matters and with music and the arts. New paths to world or personal unity are a major interest, and you have a very practical sense of how to make your dreams real.

*Uranus Sextile Neptune*

### **Neptune: Ideals & Imagination**

Even the most hard-nosed of us have moments of real understanding, when things are seen as linked together and one piece. We stop getting the idea in little flashes and just get the whole thing. It dawns on us. We each have our own way of letting go, having communion, and (as the poet wrote) letting "the dewdrop slip into the shining sea." These moments and this state of mind are, in fact, the source for all our imagination. There are many ways of seeing through the separateness in the world to the unity behind it.

Unafraid of the "dark" side of life, you are interested in esoteric religion, everything mystical or occult, and so on. Sexuality and physical desires are encouraged and seen as spiritual. Money, power, and things of this world are O.K. too. The physical is ideal. Possessions.

*Neptune in Scorpio*

You struggle between your sense of ideals and your more practical ambitions. Your self-image and dreams are kept apart from the day-to-day practical concerns. They continue to confront one another. Authorities may not trust you, and vice versa.

*Sun Square Neptune*

Great psychological talent. Able to sense and feel in the more abstract mental areas and to bring far-out ideas down to earth. Always at the leading edge of social understanding. Great sense of compassion and a real understanding of others.

*Mercury Sextile Neptune*

You are driven to make your dreams and ideals a reality. "What could be and should be, will be and must be" is your slogan. You are committed to ideas like world unity and community. You are living in your own dreams.

*Mars Conjunction Neptune*

A new and waking vision of unity. A powerful sense of music and a faith in making the ideal a reality--for reality to be as we dreamed it and our dreams to become as real. New concepts in group work. The dewdrop slips into the shining sea.

*Uranus Sextile Neptune*

You work with real imagination and understanding in areas of the mind that are the most personal or private -- depth psychology. You are like a midwife of the spirit, assisting at the birth of each individual going through a spiritual or re-birth process. You accept the natural process of birth, spiritual and physical, and have dedicated yourself to helping it along. You would make a great teacher in these areas.

*Neptune Sextile Pluto*

You prefer a career that accents your own devotion to the dreams and ideals you stand for. Working with groups in a spirit of cooperation and communion is a natural.

*Neptune Trine Midheaven*

### **Pluto: Inner Change and Growth**

Pluto is the planet of profound change, starting deep within us and moving toward the surface. It often touches upon the most sensitive psychological areas inside us. Once touched, we have no choice but to change and grow. The most sensitive of experiences, the times of greatest vulnerability, are times of complete identification with an experience, a person, or a thing. We know in these instants that we are looking at our self, what we are. The most personal of experiences is one of complete identification with a person, moment, or idea. Perhaps this is only possible for most of us when we look into our child's eyes, and then only infrequently. Love is not the experience here, but total identification. This is very sensitive stuff. To touch upon this material is to go through deep inner change and transformation -- inner alchemy. Identification and experiencing that life is our own creation and that, in fact, you are I and I am you. This experience breaks us down and humbles. When we touch upon this experience, we cannot but die to what we have been thinking and doing up to now. It reduces us to our most sensitive because -- in a flash -- we see or remember that it all is us, our life.

You tend to be radical when it comes to self-analysis, which means health care, food, physical well-being, and so on. Serving and caring for yourself and others are primary sources of inner growth and changes. You are sensitive to criticism.

*Pluto in Virgo*

Emotional stress stemming from your insistence on analysis and psychological probing at the expense of feelings -- yours and other people's. No one will support it. Your sensitivity and vulnerability often find you at odds with the group or with others.

*Moon Square Pluto*

Penetrating, probing mind that is good for research. Can see far beyond normal concepts in areas of religion and psychology. Always want to get to the bottom of things, get under or beyond the superficial. A sense of the eternal.

*Mercury Trine Pluto*

Great intensity of emotions and purpose. Could be a spokesperson for a cause or a generation. Fearless in action and not afraid to use power. Will have your way. Know how to get what you want. A very magnetic and perhaps controversial personality.

*Mars Sextile Pluto*

A searing vision that cuts through what passes for conventional religion. A vision of the endless process of life ever being born afresh. Great acceptance and faith in the natural process and next generation. Love of children and animals.

*Neptune Sextile Pluto*

The supportive help of women or a girl can be an important factor that will affect business or reputation and increase your sense of security. You are a fine psychologist, researcher, or detective and are good at dealing with joint or others' finances.

*Pluto Sextile Midheaven*

## Challenges and Abilities

### Focus

These are areas of life where we show intense focus and activity. For better or worse, these qualities stand out and are obvious to all those who come to know us. They are very clear parts of our character.

Unusual vocations. Your career or life path, the way you make your living or get through life, will be very different, perhaps unique. You always take the road less traveled by and, skirting the crowd and the commonplace, head for parts unknown. Your approach to any problem is always original and you could invent things or discover new places or develop new ways of doing things. Communications, computers, and the whole electronic revolution are a perfect career choice for you.

*Jupiter Conjunction Uranus 01°47'*

A desire for unity and atonement. You have an urge to put out to sea and to somehow get past what separates and into that which unites or ties things together. Your drive to make dreams real keeps you working for your vision. The ideal should be made real. You put your whole heart into making your dreams and ideals a reality.

*Mars Conjunction Neptune 04°48'*

### **Challenges**

Life can be challenging, and things are not always easy. The major challenges in a natal chart are where we can expect increased activity and personal involvement -- ready or not. These critical areas of life can be difficult, and the resulting confusion and possible obscuration often makes it hard for us to see and act with normal clarity. Therefore, when it comes to the following factors you may wish to exercise caution and extra patience.

You push hard, but much energy is wasted because you tend to lack direction and planning. You often work against the way things are: authorities or the status quo. It may be difficult for you to coordinate your ambitions with your actual actions and feelings. You tend to hobble yourself emotionally. Your drive and passions put you at odds with authority figures time and again. This tendency towards clashes and emotional confrontation does exist, and at these times you can be your own worst enemy.

*Sun Square Mars 00°28'*

You keep your feelings and emotions to yourself and resent any attempt to analyze or probe them. Your home and surroundings are tidy and air-tight, as well. However, you don't mind probing and dissecting the lives of others. This can't help but produce a strain in your relations with others, and you probably get very little support for your detective work. These two parts of you which seldom meet cause constant tension, resulting in periodic explosions.

*Moon Square Pluto 01°17'*

You are very painstaking and deliberate when it comes to partnerships, lovers -- relationships of all kinds. You tend toward long-lasting friendships and are very loyal, sometimes too staid.

*Saturn Opposition Ascendant 03°21'*

You may fail to appreciate the correct decision or solution when you see it. This can mean that your judgment in career and vocational matters is at times not dependable. You may be well advised to accept the counsel of others concerning decisions relating to your career or life path. A tendency to go too far, expand too fast, and overindulge needs to be noted, and some adjustment made. Your appetites may carry you away from what you know to be the best path.

*Venus Opposition Jupiter 03°59'*

You find yourself fighting to realize your ambitions amidst a sea of fuzzy dreams. A fear of letting go (and trusting the more mystical side of yourself) keeps you hard at it. You can't seem to let yourself dream a little, don't trust your own idealizations, and struggle between your sense of ideals and your more realistic ambitions. Your practical concerns with getting ahead and fulfilling your ambitions tend to ignore your more deep-

rooted ideals and dreams. You may not trust those in authority.

*Sun Square Neptune 05°16'*

You like your life regular and find little value in new trends and inventions for their own sake. The same goes for nonconformists and all the other weirdo's that crowd the world. You oppose them, and often deliver your message in person. Arguments on this theme are common. Any sort of change threatens you more than most, and you do all you can to ignore it. Every so often, like those earthquake faults, all hell breaks loose and some of this catches up with you.

*Venus Opposition Uranus 05°46'*

Your mind is ever on career and family, and this may not make you the most communicative and social animal. You may prefer to avoid crowds and all large gatherings. You may not need relationships other than at home and at work.

*Mercury Square Ascendant 05°58'*

### **Talents and Abilities**

Despite whatever problems we may have, there are areas of life where we have clear insight and real talent -- natural ability. When it comes to these matters, our judgment is sharp and we always manage to take charge. We have the knack. It may be as simple as the ability to work hard and accomplish things without something going wrong. An innate sense of the workings of these parts of life makes it easy for us to learn and accomplish things where they are concerned.

You are very fortunate in being able to grow and progress throughout your life without major difficulties. You can always find the resources you require at hand plus the necessary instruction in how to use them. An inner vision, coupled with the ability to see the "Big" picture, often finds you working as a go-between with others. You could even have a special gift for spanning the generation gap, bringing older and younger spirits together. A love of animals, children, older people, and the needy and downtrodden in general, is a lifelong trait.

*Sun Sextile Moon 00°06'*

You are very fortunate in being able to grow and progress throughout your life without major difficulties. You can always find the resources you require at hand plus the necessary instruction in how to use them. An inner vision, coupled with the ability to see the "Big" picture, often finds you working as a go-between with others. You could even have a special gift for spanning the generation gap, bringing older and younger spirits together. A love of animals, children, older people, and the needy and downtrodden in general, is a lifelong trait.

*Moon Sextile Sun 00°06'*

You enjoy working with whatever is psychological -- the hidden, vulnerable, sensitive areas of the mind and self. You can handle material that is sensitive or taboo without batting an eye. This interest in all that is psychological makes you an excellent teacher in the field. You have a natural grasp for the political, for handling the public, and you know how to get your way. Your drive in these areas amounts to a passion, and those around you may feel that you are often too intense. Power struggles are somewhat routine

for you.

*Mars Sextile Pluto 00°43'*

You get along well with older people, especially those in authority. It is easy for you to convey yourself to others, and you always manage to make a good appearance. You have an easy manner and find it easy to communicate with just about anyone.

*Sun Trine Ascendant 01°06'*

Everything seems to conspire to put you in the limelight. You always come off well in a group and manage to get your ideas across.

*Moon Sextile Ascendant 01°13'*

You prefer a career that accents your own devotion to the dreams and ideals you stand for. Working with groups in a spirit of cooperation and communion is a natural.

*Neptune Trine Midheaven 01°30'*

You are expert at working with words that communicate mystical and mythological ideas. You are at home in these realms and can always manage to bring other-worldly ideas into the practical realms. You would make an excellent teacher of philosophy or religion, for you can't help but communicate these subjects and enchant all who come to know you. Your understanding of the unity behind appearances, along with the ability to put these thoughts into words, is a rare and valuable gift. You would make a good director, for you like working with mental images.

*Mercury Sextile Neptune 01°49'*

Your sense of responsibility is so well developed that you always end up managing any situation you become involved in. You are disciplined, work hard, and are good at getting others to work with and for you. Perhaps a little too serious and frugal, you enjoy getting along on less. Essentials are what count. You like to keep to yourself and tend to avoid too much socializing. Others may prefer keeping some distance too.

*Moon Trine Saturn 02°08'*

Responsibilities are easy for you, and you tend to pile on tasks, one after another. You work very hard, with a gritty resolve, and can accomplish much. It takes a lot to overload your willingness to take charge and help out. Organizational skills are good, and a career in one of the physical sciences is quite possible. You find it easy to work with those in authority or those who are more experienced than yourself.

*Sun Sextile Saturn 02°15'*

The supportive help of women or a girl can be an important factor that will affect business or reputation and increase your sense of security. You are a fine psychologist, researcher, or detective and are good at dealing with joint or others' finances.

*Pluto Sextile Midheaven 8 n485' TJJT2 1 Tf12 0 015ar*

*Mercury Trine Uranus 03°01'*

You put forth a lot of effort, in particular regarding your career. Your drive and ambitions work well with whatever management skills and practical ability you have, producing a harmonious work environment.

*Mars Trine Midheaven 03°17'*

You work with real imagination and understanding in areas of the mind that are the most personal or private -- depth psychology. You are like a midwife of the spirit, assisting at the birth of each individual going through a spiritual or re-birth process. You accept the natural process of birth, spiritual and physical, and have dedicated yourself to helping it along. You would make a great teacher in these areas.

*Neptune Sextile Pluto 04°05'*

You enjoy working with your mind and can usually find a solution to even the worst problems. You like to solve puzzles and dilemmas, yours or others'. Your skills in this regard make you expert at counseling and guiding others. Fine verbal skills and a natural sense of justice makes legal work a distinct possibility. Working with laws, natural or man-made, amounts to a real talent. You also have a great interest in ideas, the more true and lasting the better. Religious concepts will be a lifelong concern for you.

*Mercury Trine Jupiter 04°48'*

Your insight and vision into what unites people and into the dreams and mystical regions of our mind is profound. You have an enchanting way of working and communicating with others in these matters and with music and the arts. New paths to world or personal unity are a major interest, and you have a very practical sense of how to make your dreams real.

*Uranus Sextile Neptune 04°50'*

When it comes to mental work, you have a perfect gift for research and investigation. You enjoy examining and analyzing, in particular when it comes to psychological and sensitive areas of the mind. Your ability to sift through the dross and come up with what is essential every time is exceptional. You like to discuss and communicate, again always at a psychological and very personal level. Others may find you just too intense.

*Mercury Trine Pluto 05°54'*

## **Landscape: Major Life Periods**

What follows amounts to a brief overview of the first thirty years or so of your life -- a road map of the years to come. Since childhood, adolescence, and early adult life are so crucial to each of us, an attempt has been made to describe these formative years. Based on the gradual movement of the planet Saturn, this is one of the most tested of all astrological techniques. It is used by almost every professional astrologer as part of any personal consultation. Provided that your time of birth is more or less accurate, you will find this information both accurate and informative. Here is a general life overview,

followed by a close-up on your current changes -- what is happening right now. First the overview:

### **Your Personal Background**

You are a late bloomer, and your childhood should be an easy one. However, in your early teens (somewhere around the age of 14-15), you will take a distinct turn toward the more inner and subjective. This could mean a number of years when you feel insecure, very alone, and quite on your own. The years from 14 through 21 or 22 will be times of intense searching and self-examination during which you may not have much outwardly to show others as to who you are or what you can do. You could be perceived as hard to reach, and you may feel that no one recognizes who you are. Fear not, for this is not a long-term condition. In your early to middle twenties, you will have a real awakening (suddenly find yourself), will move outward, and will find something upon which you can build with confidence. Each year afterwards brings a gain in self-confidence and accomplishments. Your most successful years (from 30-40) will bring you material gain and outward recognition. You could reach a peak of fame or success around the 37th or 38th year.

### **Your Current Situation**

Now for a close-up of recent years: while landscape was quite general, the dates given in this close-up should be much more precise. Life is composed of sections of time, each devoted to one kind of activity or another. We go along for a while in one direction until something changes within (or outside) us and we head off in a new course. Some of our earlier activities dry up and new ones spring up in their place. What follows is an analysis of the time period in which you find yourself now. Don't look here for a day-to-day account of life but rather to get a picture of this stretch of time, "these years."

**Sep 13, 2004 1st Pass D> (Age 35 7m)**

**Jan 05, 2005 2nd Pass R< (Age 35 10m)**

**May 31, 2005 3rd Pass D> (Age 36 3m)**

The above dates mark the end of a number of years of hard work on your part, sort of an apprenticeship. Now you will begin to come into your own. Opportunities will present themselves. Now is the time to make that outward push and ride the crest of the wave into fame and fortune. This is the best time you will have (for many years) to make progress, push forward, and rise to prominence. It will be hard for you to do wrong, for all the cycles are working in your favor. This is also a time when you may marry or take on a new role in the community or with other people. You will be in demand, and recognition will be forthcoming. Go for it. These next 6-7 years will find circumstances working to help you and raise you up, push you forward. In summary, this marks a more outward and enjoyable series of years, during which things will come to you easily. Friends and a social life are in order and, in general, an easy and untroubled life. These are good years to grow up, be social, recognized, and so on.

*Saturn in 03rd Quadrant*

## **The Elements, Modalities and Angularity**

Elements, modalities, and house quadrants. These are all techniques used by astrologers to gain a general picture of how a person measures up. How do your planets and houses total up? Which do you have in abundance, and which do you lack, if any? Those with high totals show what we can or must do in life. These are qualities we have. However, most people are more interested by what they lack or want -- their lowest totals. They tend to study their "wants," imitate, and even pretend to have them. The old adage is: we become what we want (or lack), while we do what we can (or have to do). Here are your totals:

There is an emphasis on communication, expression of ideas, and the connections between things, places, and people. What goes on in your mind is the all-important motivation in your life. You tend towards mental pursuits and admire intelligence.

*Have Air*

Common sense and the ability to deal with practical matters may be lacking, and you may wonder at those who spend much time making money, doing life's chores, and attending to basic necessities. You depend on mental activity and confidence.

*Want Earth*

You may lack flexibility, managing a foot-in-the-mouth when you least need it. You could have trouble adapting to situations or to the demands of those around you. Perhaps it is not easy for you to communicate or smooth over things.

*Want Mutable*

You could have difficulty getting outer recognition for your efforts or accomplishments. This doesn't mean they're worthless. It does mean you should throw your efforts into work or ventures you really love doing, not for others.

*Want Angular*

## **Your Burn Rate**

We all change, but the question is: At what rate? Some of us tear through change after change, one phase following another, year after year, while others move at a more serene pace. Or, one area of our lives may be hectic and forever changing, while other areas are quite tranquil. Why do some people seem to live lifetimes within lifetimes? Here is an analysis of your particular rate of change or "burn rate," including the particular areas of your life (planets) where you can expect continued change and growth. Areas where there

is a very low index of change (indicating clear and easy use of the qualities involved) will also be pointed out. If you have sometimes wondered about the areas of your life where the candles burn at both ends, here are the details.

You have a very high burn rate (index of change) and tend to run hot and fast. It is almost like having many lifetimes within this single one. Things are always fast and furious with you, and you seldom remain calm for long. Your thirst for experience and growth keeps you always on the move. You work through an enormous amount of change compared to an average person. In particular, the following qualities are areas where you have experienced and will continue to experience much change. These areas of life persist in presenting themselves to you, so you may already have become very experienced in them. On the other hand, they could be arenas in which you struggle but have not yet attained mastery.

A majority of planets in the FUTURE suggests that you tend to run ahead of the pack, taking changes and acting things out before they become accepted and a part of the status quo. Things happen to you that you come to understand over time.

### **Planets in High Focus**

The mind, and all that is mental, will be the source of continued change and adjustment. Letters, writing, speaking, and all things having to do with communication and cognitive work assume great importance. Your mind tends to be engrossed with thoughts, ideas, and concepts and remains in almost constant flux. Mental learning is an area of preoccupation.

*Mercury*

You will go through a lot of change regarding personal values -- your ability to appreciate, measure, and appraise things. You may find yourself preoccupied with possessions and the way you feel about them. All matters of value, valuing, and ownership will be the source of continuous learning. Issues of compassion, love, and care are areas that will require learning.

*Venus*

Emotional change and growth will be in high focus and amount to a constant in your life. A high burn rate here suggests that feelings, motivation, and sheer drive will be a trademark as well as a source of continual experience and learning. You find yourself in constant change in matters of feelings, and emotional scenes are part of your stock and trade. Experience in these realms will be extensive.

*Mars*

You have a high rate of change when it comes to what you believe in -- your ideals and dreams. You adjust and change your ideals often and struggle not to get carried away with each new vision. The world of your imagination is a major focus of change.

*Neptune*

## **Patterns: Your Inner and Outer Self**

Here we are examining your basic attitude or approach to life, what is called by some the archetype or soul-type. If you know something about your particular soul-type, this can provide valuable information as to the general direction and purpose of your life. In particular, it is important to note the difference, if any, between our outer personality (the way we appear to others) and our real inner self; how are we, in fact, as people get to know us? Not all people are as they seem.

Appearances can be deceiving, and here is a case in point. Your appearance (the way you come on) and personality suggest that you may be inward, quiet, and concerned about what other people think. This, in truth, is not the case. Although gentle-mannered, conservative, and sensitive on the outside, you are tough as nails on the inside -- as anyone can testify who gets to know you very well. The fact is that you like attention and have a real need to be at the center of any group. Your more sensitive style hides a strong, aggressive, and quite confident nature. You are at home in a crowd and enjoy the attentions of others. You expect them to come to you. Your mild mannered smoke-screen hides a real tiger. Appearances aside, let's take a look at the real or inner you.

*Geo: Trine Helio: Square*

### **Your Soul Type**

You are independent, confident, and more than likely more than a little self-centered. You love attention and somehow manage to gravitate to the center of almost any group or happening. Others accept you, for they sense you are a leader and admire your almost regal manner. Yet they may have to keep their distance, for as much as you love attention and the crowd, you are also fiercely protective of your independence, sense of freedom, and -- above all -- your privacy. There is a kind of contradiction here. When in the mood, you love to express yourself, entertain and perform for others, and enjoy being surrounded by an audience. You are very magnetic and dynamic. Others love to be with you. There is something about you that others can't seem to get enough of; yet for all your confidence, you tend to depend on others for advice and counsel. Your grasp of the moment is unquestioned. You're it, or at least always in the midst of it. Yet you find yourself needing the advice of someone who is not as involved, someone to give you directions from time to time. In a sense, you are all dressed up but are not sure where to go or where you are headed. And because of this, you depend on those around you for direction and guidance during the times when you lose sight of the bigger picture.

You are a very feeling person and can sense the drift of a situation without a lot of analysis. This immediate "hands-on" approach might be contrasted with one that is more deliberate and cerebral. You could be left with a bit of an inferiority complex when it comes to matters of education, philosophy, and conceptual ability. In a word, you revere this kind of stuff, not because it is natural to you but rather because it does not come easy for you. You have to work for it. There may be a tendency on your part to puff up your intellectual powers.

It is said that there are just two kinds of people in the world, those who are born to

love and those who are born to be loved. You are the second type, one who is born to be loved and cared for by others. Don't feel bad about attracting attention in a group. People love to be with you and find you very easy to love. Everyone wants a piece of you, and this can result in your needing more space, a chance to be alone. Your type is not famous for being attentive to the needs of others or being very demonstrative in a love relationship. You are the immovable object that others find irresistible and sometimes selfish. You love to express yourself and are a born entertainer. You are very stubborn and have great stamina. You may tend to fear that others find you a little dense or too sense-oriented. You radiate energy and information and have to just accept the fact that people like to feel your warmth. Let them take care of you. You sit on the throne.

*Square Type*

### **The Key to your Inner Life**

Each person has one or more key qualities. Here we are not referring to our appearance or personality, but rather to our inner nature, how we are when someone really gets to know us.

In a word, it is your emotions and gusto that hold your innermost self together. Your feelings are not just important, they are central to getting to really know you. A strong devotional nature becomes apparent to anyone who takes time to know the real you. All else follows upon this inner drive and energy. The search for a mate, and marriage in particular, are crucial for you. You are driven to unite and find out what togetherness means.

*Mars*

At heart, you have a deep sense of responsibility and purpose, and this seriousness is genuine and felt by others. You seem to gravitate to those things which last and hold true, and are always separating the wheat from the chaff. You manage to get down to the bare bones. Matters of law, religion, and philosophy of the most resolute kind hold your interest.

*Saturn*

### **The Key to your Personality**

Your sense of discrimination, the ability to discern gradations and differences, is a crucial element in your personality. You relish and cherish things so. Your value system, the way you enjoy and appreciate everything, is a central factor in your make-up.

*Venus*

Your sense of direction (handling a person or a problem) is perhaps the key element in your personality make-up. How you manage difficulties, find that diplomatic solution, or come up with the right approach all are built around your talent. Your outward charm and ability to be all things to all people is what is most central to your personality. This ability to solve problems, to counsel and always to put others at ease is the key to meeting and coming to know you.

*Jupiter*

### **The Personal Hot Spot**

Your dreams and ideals are the number-one component for action in your chart. Your imagination is crucial to your functioning.

*Neptune*

Your mind (all that is mental) mark the single most active factor in your make-up. The key spot in your personality and circumstances is your mind (the world of ideas and communication).

*Mercury*

### **Interface: Innermost qualities**

This feature is based on an intricate analysis of the position of a particular planet in relation to the orbital planes of the other planets. The resulting series of crossings, or nodes, tells us something about the nature of our innermost inclinations (Inc) and disinclinations (Dis). These indicators are not to be considered at the level of our personality, but rather are deep-seated parts of our innermost character -- our internal biases. These pros and cons are not apt to change in the course of our lifetime.

What you don't love is the parade of emotions -- directness from others. What you do love and appreciate may not be as clear to you as what you do not love. You are troubled by all that gets too pushy, physical, and gushy. About this you are clear. Sports, ordeals of bravery, and all that is too physical is objectionable. Given the world as it is and your predisposition, a certain amount of emotional tension is unavoidable.

*Mars Dis Venus*

With you, dreams and ideals have become a way of life. You seek to bring them down to earth and make them real. You will, as the song says, never let your dreams depart. Yours is a path of imagination and vision, perhaps leading to a career in music, mysticism, or the arts. You understand the forest behind the trees and the unity beyond all separateness.

*Jupiter Inc Neptune*

You are very deliberate when it comes to words, to what you say and think. When you concentrate, you always come up with what is essential to the matter at hand, ignoring all else. You're anything but "flip," and your more serious approach to ideas, while welcome when there is mental work to do, may not always be appreciated when others are in more social moods. You are so serious. Philosophy, religion, and the like are natural for you.

*Saturn Inc Mercury*

You value the simple life and have little use for pomp and circumstance. Your appreciation for hard work and discipline is natural and lifelong. You actually love responsibility and tend to pile on the work. Others may find you frugal or unnecessarily Spartan, but you love simplicity as much as they love opulence. You can discriminate the wheat from the chaff and put great value on organization.

## Major Transits Happening Now

Astrologers use the term "transits" to mean the positions of the major planets that are overhead (in the sky) right now and their relationship to our birth chart. Transits are very important indicators of the current situation in which we find ourselves. They can provide insight into what we are now going through. Here are the dates when the next major transits for the planets Jupiter, Saturn, Uranus, Neptune, and Pluto are exact in your chart. Some dates will have already passed and some are still to come. Remember, with these large planets transits don't just happen on the day when they are exact. They cover a wide span of days, weeks, months, and sometimes years, depending on which planet is involved.

In general, transits of Jupiter take from several days to a week or two to complete, while those of Saturn take from two weeks to a month to play themselves out. With the outer planets, the period of activity is even longer: transits of Uranus take about two months, Neptune three or four months, and Pluto takes about a year. Uranus, Neptune, and Pluto move so slowly that the complete transit experience may take a year or two to complete itself. So be prepared to work with these situations.

**Oct 28, 2005 1st Pass D> (Age 36 8m)**

Your ideas may not agree with the direction your career is taking. The price of success could mean that ideas and methods of communication you are happy with get ignored or set back. You may feel that you cannot communicate your thoughts.

*Jupiter Square Mercury*

**Oct 05, 2005 1st Pass D> (Age 36 7m)**

**Jan 10, 2006 2nd Pass R< (Age 36 10m)**

**Jun 22, 2006 3rd Pass D> (Age 37 4m)**

Circumstances may augment and stimulate appreciation and enjoyment of your life situation. Your system of values may deepen, providing you with a better sense of discrimination and good taste. Purchasing, selecting colors, and so on are at a high.

*Saturn Trine Venus*

**Sep 29, 2006 1st Pass D> (Age 37 7m)**

Outer circumstances are favorable, and it should be easy for you to push forward in projects and in all aspects of your life. Things may seem almost magical in the way they work out in your favor. A great time to organize and get things accomplished.

*Saturn Trine Saturn*

**Dec 22, 2005 1st Pass D> (Age 36 10m)**  
**Jul 23, 2006 2nd Pass R< (Age 37 5m)**

A time when all that is personal, sensitive, and secret will come storming out of the closet to confront you. A cornucopia of emotional vulnerabilities for you to cope with. Change is the easiest thing to do. Let it flow and let it go.

## **House Activity and Emphasis**

The twelve houses of the horoscope, particularly when they are occupied by a planet, provide a clue to areas of special activity and use. Here is an analysis of house activity based on planet emphasis:

### **First House: Appearance, Approach**

The first house has to do with how we appear or the way we come across, thus our appearance and personality. This is the essential stuff that bubbles up in us spontaneously and that is obvious to others as our trademark or activity. It is what makes us each so personally different. This house rules our personal self and everything about us that draws a reaction from our surroundings or others.

*First House*

Libra energy is always facilitating and responsive, assuming the appropriate reaction or response to any question or statement. What is sometimes seen as two-faced is only Libra's facility at responding to each in kind. This is certainly the social sign, par excellence. Impersonal and impartial, this sign doles out only what is demanded, never overdoing things.

*Libra*

### **Second House: Possessions, Reactions**

The second house is concerned with how we respond to or field whatever impulses or unique and personal qualities we manifest via our first house. This is how we hold or "have" things (possessions, material goods, money, and the like). The second house always refers to how we secure ourselves, the kind of response we get from life and those around us.

*Second House*

Scorpio is the most famous sign. Intense, passionate, and very personal, Scorpio rushes past superficialities and right to the heart of any matter. A loyal friend but a fanatic foe, this sign does well in politics and all areas where someone who dares is rewarded. Often associated with sexual energy, perhaps due to its tendency to strip away veneer, laying bare anything that is there.

*Scorpio*

Good things (the support you need) always seem to come to you. Friends, co-workers, and plain old lucky circumstances offer encouragement and backing. You often get what you need, when you need it.

*Moon in Second House*

You are motivated when it comes to possessions and material things. An urge to respond, own, and build upon whatever comes your way makes you a natural when it comes to productivity and the business world.

*Mars in Second House*

You are very idealistic when it comes to possessions, finance, and how you choose to make your living. Your response to what life offers you is always very elevated, although not always practical. This could lead to some disappointments.

*Neptune in Second House*

### **Third House: Inquiries, Communications**

The third house is concerned with explorations, investigations, and inquiry and research of all kinds. It also rules connections, communications, wires, tubes -- anything that we can get through with our body, mind, voice, letters, what-have-you. It is here that we explore and search for the limits of our life, whatever we are working with at the moment. A very mental house, concerned with finding, furthering, peering, and all manner of questioning. Traditionally rules short journeys, siblings.

*Third House*

Sagittarius is nothing if not direct, candid, and to the point. Sometimes harsh, this energy always is concerned with the absolute truth of the subject at hand. Associated with philosophy, religion, and all things that last, Sagittarius energy is always welcome in politics as well as social and community endeavors, where its basic fairness and evenhandedness is helpful.

*Sagittarius*

### **Fourth House: Home, Family, Security**

The fourth house is where we send down roots, find our limits, and generally secure ourselves. It is the end of any searching we might have done in the third house. Here we find or end our search, settle down, and manage to get in possession of the whole situation. This is our home and the base from which we can work, feel, and experience. This is the root of our experience, the core or thick of it.

*Fourth House*

Capricorn is the business energy of the zodiac, for it is the very opposite of the emotional Cancer. Given to clear-headedness and practical insight and vision, this sign always takes a distanced perspective, a cool appraisal. Logical and painstaking, Capricorns love hard work and earned results. Money and things in general are very important.

*Capricorn*

Home, family, and security are important to you. You love to send out roots and build a home base. Sensitive and somewhat private, you tend to be a very feeling (and

sometimes vulnerable) person. You sense things and have a good feel for business.

*Sun in Fourth House*

Your mind tends to settle on issues of security -- home, family, and such. Your thoughts have great substance and feeling. An interest in history, the past, and nostalgia may be lifelong.

*Mercury in Fourth House*

### **Fifth House: Expression, Creativity**

The fifth house has to do with awareness, emotion (to move out), and expression (to press out). Here there is always a growing sense of self-confidence and even a pride of ownership, since we begin to recognize and own our experience. We know that we have had or are having an experience. All forms of expression and offspring are connected to this house -- children, animals, creative expression, and so on. A sense of direction and ownership takes hold at this point in our experience.

*Fifth House*

Aquarius, the sign of humanitarian goals and altruism. Always impartial and nonsectarian, Aquarian energy is communal (even global). The focus is on the goal, and the goal is always one that is for the many and not the few. Thus this sign is connected to far-seeing visions, world views, and group work of all kinds. This sign tends towards coolness, independence.

*Aquarius*

### **Sixth House: Responsibility, Work, Health**

The sixth house has to do with salvaging and preserving what is good and healthy in our experience. Here we separate the wheat from the chaff. We begin to care for ourselves and our experience and thus health, nutrition. The idea here is that we are able to analyze our experience and have thoughts about what is pure and what is not. The sixth house is an attempt to save the heart of an experience, one that already by that attempt is beginning to pass or not cohere.

*Sixth House*

Pisces energy runs deep and toward the psychological -- whatever is beneath the surface. This sign is understanding, patient, and long-suffering. Pisces tend to absorb all the little barbs and digs coming from outside. They always have their mind on an inner goal, something more important. They are very forgiving and accepting -- giving of themselves for the sake of more important issues.

*Pisces*

You like to do things with care and enjoy being discriminating and exact. Your critical faculties are excellent, and you can always pick out what is worth saving and what is not. You appreciate a caring attitude and are service-oriented.

*Venus in Sixth House*

Your critical faculties are severe, and it may be difficult for you to exercise them. Once you turn your analytical light on, you tend to be relentless in appraisal. This could make working with others difficult. Good for food, health, conservation.

*Saturn in Sixth House*

## **Seventh House: Relationships, Other People**

The seventh house is the house of partnerships, relationships, social life, and all that carries us beyond our personal self into an awareness of other people, community, and the like. This includes spiritual awakening and the discovery that we are more than just our personality. Here we begin to respond to our personal needs (and those of others) for the first time.
